TO: PROSPECTIVE OFFERORS

The Embassy of the United States of America in Quito, Ecuador has a need to identify seismically competent properties in the local housing market for possible lease. Housing types under consideration include single-family detached residences, townhouses, and apartment units. The assistance of a local structural engineer who has in-depth knowledge of indigenous housing design and construction and is well versed in seismic engineering is being sought for this effort.

The Embassy of the United States of America in Quito, Ecuador invites you to submit a quotation to perform a qualitative seismic assessment of some properties, as required. This includes the identification and evaluation of significant non-structural seismic hazards in and around these properties.

Please contact Cecilia Rosero at e-mail address: roseroc@state.gov and Jose Balseca at e-mail address: balsecajj@state.gov in order to send you the complete Statement of Work.

If you are interested in participating in this project, your quotation must be submitted to the following e-mail addresses: Cecilia Rosero, roseroc@state.gov and Jose Balseca, balsecajj@state.gov **before 4:00 p.m. on September 28, 2016.**
